MEMORANDUM FOR THE RECORD

SUBJECT: Request for Meeting with Representative Preyer

1. As a follow-up on Mr. Preyer's invitation Friday to come to him with information or suggestions, if we had any, I phoned his office Wednesday morning, 16 August, to request an appointment. In preparation for this I had arranged with the Office of Security to declassify one sanitized copy of Tab D of the 1977 Task Force Report, dealing with [redacted] it was my intention to leave this with him for personal review on loan during the pending recess (18 August - 5 September). I also had a copy of a paper written in 1975 by [redacted] for the Rockefeller Commission, [redacted] with an errata sheet, for him to read while I was with him. He had shown some interest in the two subjects and this seemed a good way to open a more detailed dialogue than had been possible at the Friday meeting.

2. I was informed by Mr. Preyer's appointment secretary that he is extremely busy with the hearings (he chaired them yesterday so Chairman Stokes could question Ray). I simply said that he had asked us to contact him, and this would be the only chance prior to the hearings next month, so it would be appreciated if the matter could be presented to him. I left my name and telephone number.
